

4 Essential Tools for Positive Patient Identification

There's never been a more important time to accurately identify healthcare patients and match them to the right care, medications, tests, and specimens.

At ACS MediHealth, we've teamed up with Zebra, a global leader in mobile healthcare technologies, to make Positive Patient Identification (PPID) easy.

Using Zebra's patient ID wristbands, barcoding, RFID, and mobile computing solutions, we help providers match the right patients to the right care and test results, thereby reducing medical errors and eliminating treatment delays.

Here are the 4 essential tools we recommend for upgrading to the latest and most accurate patient identification:

1

Zebra Z-Band® Thermal Wristbands

Positive and Accurate Patient Identification

- Anti-microbial wristbands for better safety
- Wide range of colors for easy visual cues
- Comfortable sizes for adults, children, and infants
- Both adhesive and clip closures available
- Designed to withstand harsh sanitizers and solvents

2

ZD510-HC Healthcare Printer

Easy-to-Use Thermal Wristband Printing

- Fast printing of antimicrobial wristbands
- Easy printing with simple one-step cartridge loading
- Disinfectant-ready and UV-resistant design
- Connects via Ethernet, USB, USB Host, or Bluetooth LE
- Compatible with Cerner, Epic, McKesson, AllScripts, and more

3

DS8100-HC Handheld Scanner

First Time, Every Time Barcode Scanning

- Premium scanner, purpose-built for healthcare
- Scan virtually any barcode in any condition
- Bacteria-resistant housing for patient safety
- Patient-friendly silent feedback modes
- Extended power for around-the-clock use

4

TC52-HC Touch Mobile Computer

All-In-One Mobile Computing for Healthcare Workflows

- Mobile access to EHR, alerts, secure texting, and voice
- Fast and accurate capture of 1D/2D barcodes
- Built-in push-to-talk capabilities
- Ultra-powerful processing and full-shift power
- Healthcare-grade design for disinfecting and cleaning

Our Cost-Saving Trade-In Program

GO ZEBRA TRADE-IN PROGRAM

The GO Zebra Trade-In Program offers timely savings to help healthcare providers reduce the costs to upgrade to the latest healthcare mobile computing and data capture technologies.

- Trade in any qualifying device, including non-Zebra products
- Save up to \$125 per device on barcode and wristband printers
- Save up to \$75 per device on healthcare-grade mobile computers
- Save up to \$25 per device on healthcare-grade barcode scanners
- Take advantage of the easy 90-day rebate process to simplify your claims
- Leverage savings now through December 31, 2020
